A Conversation could change a life

10th September 2020

A conversation could change a life.

Thursday September 10 2020

2020 has been a challenging year for everyone and circumstances have made it even more important for us all to stay connected and, for those who are able, be willing to support those around us.

You don't have to be an expert to know that most of us have been negatively impacted by the issues this year, This year started with ferocious bushfires, the devastating floods, then came the virus pandemic that shut down the entire global economy , Killing almost 1 million people and resulting in so many of us losing our jobs and in some respects our freedom.

Lets all ban together and support each other. As I believe if we stand together, that we as Australians can get though anything.

Trust the Signs, Trust your Gut, Ask R U OK?

Changes in sleep patterns

Mood swings or changes

Quiet or withdrawn

Anxious, worried or overwhelmed

Irritable or angry
